Dahlias

FOR 1935

MAD RIVER GARDENS

To Our Customers and Friends

WE GREET you for 1935 with greater enthusiasm than ever before. Our early orders from those who know us best, have increased materially over former years, and we feel there is no doubt that our great country is now on the threshold of much better times; we hope the troubles and sufferings of our fellow men have gone forever.

This year our offerings for your consideration comprise the greatest array of new fine Dahlias we have ever been able to gather together, and from every market in the world. Many of these will not be listed elsewhere in the U. S.

It was very interesting to note this past season that the great Dahlia winners were not always the largest Dahlias, and sheer beauty came into its own; the very large Dahlias, unless they had beauty as well, did not get much consideration from the judges. More than ever the Dahlia is receiving its just reward; new varieties are being bred for every useful purpose, and we note that PRINCESS MARINA adorned her evening gown with two beautiful blue taffeta Dahlias; very often popular styles start here.

This past dry, hot season gave further proof that good, strong plants, grown right, will produce. We call your attention to a few items on page 20 of this catalogue.

Wishing you new joys with your Dahlias this year, we are,

Sincerely,

MAD RIVER GARDENS

Member: American Dahlia Society
Dahlia Society of Southern Ohio
Dahlia Society of Kentucky.

BARBARA WALKER (Walker-Wickersham) I. D. A beautiful Dahlia formation; another Certificate of Merit winner at Storrs, scoring 85. Very resistant to insects and heat, and keeps right on growing. Every one liked this one. Color light vividine yellow, just like velvet.

Plants \$5.00 Roots \$10.00

BETTY ZANE (Mad River Gardens) I. D. We expected to hold this introduction for 1936 but as we had a good stock, and all who saw it wanted it, we have decided to put it out this year. Very large flowers of deep rose pink, with a silver sheen. We believe its great quality of uniform growth and prolific blooming will make it very popular.

Plants \$5.00 Roots \$10.00

The name Chinese Lantern, was suggested by our good friend Mr. Frank Averbeck, Covington, Ky.

CHINESE LANTERN (Caldwell-Wickersham) I. D. CHINESE LANTERN

THE YELLOW KNIGHT (Knight-Mad River Gardens) I. D. We quote from Derrill W. Hart's Honor Roll:—"Sent me for trial this year, and I consider it one of the best of the novelties. A clear, golden yellow of a bright and pleasing shade. The bush is a tall grower, and the bold yellow flowers are on long, perfect stems. Competition in yellows has become very keen, but this unheralded Dahlia will make some others uncomfortable." We add, and a most prolific root producer.

Dahlia Seeds

Having been asked so many times, "Where do you get your seeds?" and "Where can I buy seeds like that?" we offer for sale a few seeds—a limited supply only.

Dahlia Seeds at best, the very best, are always a chance. From twenty-five seeds you might get a real Gold Medal winner, and from a thousand seeds, nothing worth while. The best we can do is to give you the best to be had—there are none better.

We know of no greater sport than to watch these seedlings burst forth for the first time, and to know when we do get a new one that it is worth while, there is none other like it.

We feel fortunate indeed to be able to offer you Dahlia Seeds from, we think, one of America's greatest Dahlia breeders.

With the foregoing descriptions we have made every effort to not over-describe our offerings. Our continued success depends upon our Dahlias making good. If your dealings with us are not satisfactory, we want to know it. We solicit constructive criticism.

We invite you to visit us at any season, but especially at blooming time, that you may see a wealth of new things — our own new Dahlias, and the promising new ones of other growers, which have been entrusted to us for introduction.

What Others Say About Our Dahlias

It is a great pleasure to quote to you from a few of our friends and customers.

"You are welcome to quote me on the unsurpassed green plants I received from you last spring; they arrived in perfect condition, not a leaf wilted, the strongest large plants I have received from anywhere. Your method of shipping potted plants has rendered obsolete the practice of many growers of shipping small, root-bound plants having growth checked. In spite of the terrific drouth your plants did as well as any planted from roots, making fine root clumps as I found when dug during October. Your plant of Satan produced the largest blooms of any variety I have grown, one flower 13.5 inches and two 12.5 inches blooms at the same time."

PROF. H. H. K., AMES, IOWA.

"Your Dahlias were O. K. and your plants were exceptionally good. Am purchasing Dahlias now, so send me your 1935 list."—H. N. North, Wisconsin.

"I am very glad to report to you that I received plants from ten different sources, and I got the best results from the plants received from you. I am also glad to tell you that Mrs. Ella Worthen, and your ANTARES received the most praise from visitors and many said that Mrs. Ella Worthen was the most spectacular Dahlia grown. The best way I can show you that I appreciate the quality of your plants is to give you another order for next year. Am awaiting your list and ideas of the best, and to learn more about the great "Yellow Knight".—Prof. D. H. T., Chicago.

"I have been intending to write you for some time relative to Dahlia plants I purchased from you. All the plants you sent me are away ahead of any others that I received. I am greatly pleased with Ruby Taylor and Antares. Talking about fine Dahlias, Mrs. Ella Worthen is one of the finest we have ever seen and Mrs. M. classes it with Murphy's Masterpiece and Spotlight. We cut one Sunday measuring 11½ inches and as fine as a race horse all over.'—H. T. M. S., Carolina.

"The roots and plants you sent me did better than any I ever bought since I have been in the Dahlia business, and if I were in a position to do so, I would clear out everything but a few, and buy new stock from you..... Your MARY BAKER is even liked better than Lord of Autumn, and my Lord of Autumn is ten feet tall, and produced wonderful blooms."—F. D. G., York, Pa.

"The finest plants I ever saw."—Plant Inspector, State of California.

"You certainly have this plant business whipped."—New York Dahlia Grower.

"There is an honor in business that is the fine gold of it.... that reckons with every man justly... that loves light... that regards kindness and fairness more highly than goods or prices or profits..... It becomes a man more than his furnishings or his house It speaks for him in the heart of everyone His friendships are serene and secure."

Henry W. Longfellow.
